Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 12-83, 84-87 and 96-97 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 6,728,475. Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between claims 12-83 of the present application and claims 1-14 of U.S. Patent No. 6,728,475 is that claims 1-14 of U.S. Patent No. 6,728,475 further recite that the reproduced picture is displayed. However, it is noted that eliminating an element and its function is obvious to one of ordinary skill in the art. Therefore, it would have been obvious to one of ordinary skill to modify claims 1-14 of U.S. Patent No. 6,728,475 by eliminating any element used for displaying the reproduced picture from claims 1-14 of U.S. Patent No. 6,728,475 to produce claims 12-83 of the present application.

Art Unit: 2616

Applicants argues that claims 12-87 and 96-97 of the present application is distinct from claims 1-14 of U.S. Patent No. 6,728,475 because claims 1-14 of U.S. Patent No. 6,728,475 recite a picture is repeatedly output for displaying and claims 12-87 and 96-97 of the present application recite maintaining a displayed frame . In response it is noted that the recitation of maintaining a displayed frame in claims 12-87 and 96-97 of the present application inherently contains “ repeatedly output a frame” as being recited in claims 1-14 of U.S. Patent No. 6,728,475 . In order to maintain displaying a frame , the frame must be repeatedly output for the time of display.

3. Claims 98-102 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 20-25 of copending Application No. 11/090034. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 98-102 of the present application recites an method that corresponds to the apparatus of claims 20-25 of copending Application No. 11/090034 . It would have been obvious to one of ordinary skill in the art to use the apparatus of claims 20 –25 of copending Application No. 11/090034 to perform the method of claims 98-102 of the present application

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

Art Unit: 2616

4. Claims 88-95 and 103-119 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUY T. NGUYEN whose telephone number is (571) 272-7378. The examiner can normally be reached on 8:30AM -6:00PM.
